It was great, I'm looking forward to a new meeting.

Big thanks to the Croatian school for the well-organized project meeting and great contribution to the project. I liked this meeting very much. Very warm and helpful people. They tried to do their best. Thank you for everything. See you in Lithuania.

I was very impressed of the Croatian hospitality. Our students became more self-confident and also opened their mind for another culture.

I really enjoyed seeing how students got together and enjoyed each other and how they gained self-confidence. The program really helps to reduce prejudices and get people together. New friendships were made.

The Croatians have a great hospitality.

The program was project orientated and we all learned a lot about the ecosystem river.

Good professional experience

I found the visit very useful for both teachers and students because we learnt a lot about Croatia, about its culture and traditions and because we were able to make a lot of friends.

I had good time in this school, this town and I liked the people. I hope to return to this country and spend more time.

I liked it very much. Thank you.
